

# SATS:2019

## SATS/Swedish Thoracic Meeting

September 4 - 6, 2019

### Wednesday September 4<sup>th</sup>

12.00	Registration Open
18.00	Get together - Stockholm Waterfront

### Thursday September 5<sup>th</sup>

SATS/SACTS		SCANSECT		SATNU		SFTAI	
07.50-08.10	Welcome SACTS President Göran Dellgren Meeting President Anders Ahlsson						
08.10-08.40	Memorial lecture Dr Torbjörn Ivert, Professor, Karolinska University Hospital: Viking Olof Björk – neighbor, supervisor, and friend			08.50-09.20	Depression and cardiovascular disease: Malin Stenman, RN, PhD, Karolinska University Hospital	08.40-10.00: Hjärtstopp och ECMO Moderator: A Liljequist Karolinska	
08.40-10.00	Symposium Aortic valve interventions Moderators: Magnus Dahlén, Gry Dahle Transcatheter Aortic Valve Implantation (TAVI) – in low-risk, in bicuspid aortic valve, and for how long?: <b>TBA</b> The Ozaki procedure – an alternative to surgical aortic bioprosthetic replacement?: Dr Markus Krane, München, Germany	08.40-10.00	Symposium: Different perfusion techniques for minimal invasive mitral valve surgery Moderator: Daniel Bengtsson, CCP, Sahlgrenska University Hospital, Gothenburg Henrik Arthursson, CCP, Akademiska University Hospital, Uppsala Jimena Morlas, CCP, Karolinska University Hospital, Stockholm	09.20-09.40	Post-operative delirium and the Nursing Delirium Screening Scale (Nu-DESC): Helena Claesson-Lingehall, RN, PhD, Umeå University Hospital	09.00-09.15	ECPR kriterier/optimering Karolinska: T Fux, Karolinska University Hospital
				09.40-10.00	Prevention and detection of post-operative delirium – A caring perspective: Åsa Jönsson, RN, Karolinska University Hospital Anton Eklund, MD, Karolinska University Hospital	09.15-09.30	ECPR kriterier/optimering Uppsala: E Mörtberg, Uppsala
						09.30-09.45	ECPR kriterier/optimering Sahlgrenska: B Redfors, Sahlgrenska
						09.45-10.00	Diskussion
10.00-10.30	Coffee break						

SATS/SACTS		SCANSECT		SATNU		SFTAI	
10.30-11.30	Symposium Mitral valve repair Moderators: Magnus Settergren, Fausto Biancari Experiences of introducing and developing minimally invasive mitral repair: Dr Mikael Kastengren, Karolinska University Hospital, Stockholm, Sweden The Yale program for robotic minimally invasive mitral valve repair: Dr Arnar Geirsson, Yale Medical School, CT, USA	10.30-11.00	Experience of using the Quantum HLM: Liney Simonardottir, CCP, Landspítali University Hospital, Reykjavik	10.30-10.45	Moderated panel discussion: Preventing, detecting and handling postoperative delirium: Panel: Patient/TBD, Åsa Jönsson, Anna Falk, Malin Stenman	10.30-11.30: Optimering av heparin- och protamin-dosering vid hjärtkirurgi med hjärtlungmaskin. Moderator: Jan van der Linden	
		11.00-11.30	Innovation in Perfusion, how the new generation heart-lungmachines can improve patient outcome: Peter van den Barselaar, CCP, Heartbeat, Antonius Hospital, Nieuwegein	10.50-11.25	To prevent postoperative wound infections after cardiac surgery-how difficult can it be?: Örjan Friberg, MD, Associate professor, Örebro University Hospital	10.30-11.45	Använd en statistisk modell: (M Appelblad) alt S Svenmarker, Umeå
						10.45-11.05	Använd HeProCalc algoritmen: G Kjellberg, Uppsala
						11.05-11.20	Vad säger guidelines?: G Kjellberg, Uppsala
						11.20-11.30	Diskussion
11.30-12.30	Symposium International career – how did I do it? How can you do it? Moderators: Christian Olsson, Emma Hansson Dr Sune Johansson, Around the globe Dr Ulf Kjellman, From Sweden to Saudi Dr Arnar Geirsson, From Reykjavik to Yale Raphaelle Chemtob, Overseas research career						
12.30-13.30	<b>Lunch</b>			<b>Edwards Lifesciences Nordic AB Symposium</b>			
13.30-14.30	SATS Award Session: Oral presentations Moderator: <b>TBA</b>	13.30-14.30	CytoSorb absorption during emergency cardiac operations in patients at high risk of bleeding: PD Dr Stephan Geidel, Department of Cardiac Surgery, Askelepios Klinik St. George, Hamburg		Abstract session		
14.30-15.00	<b>Coffee break</b>						
<b>SATS/SACTS</b>				<b>SCANSECT</b>			
15.00-16.00	Scientific Session 1: Oral presentations Moderators: Rune Haaverstad, Henrik Hultkvist	Scientific Session 2: Oral presentations Moderators: Anders Holmgren, Jarmo Gunn		15.00-16.00	Scientific Session: Oral presentations		
16.00-17.00	Scientific Session 3: Poster presentations Moderators: Jakob Gäbel, Laila Hellgren Johansson	Scientific Session 4: Poster presentations Moderators: Éva Támas, Tómas Gudbjartsson		16.00-17.00	Scientific Session: Poster presentations		
19.00	SATS Meeting Banquet Vasa Museum Including announcements of The Viking Olof Björk award (275 000 SEK) The Åke Senning memorial award (100 000 SEK) Prizes for best oral and poster presentations						

# Friday September 6<sup>th</sup>

SATS/SACTS		SCANSECT		SATNU	
07.50-08.20	Lecture Dr Richard D Mainwaring, Clinical Professor Stanford University: Retraining the anatomical left ventricle in ccTGA	07.50-08.20	Usage of the heartbox when harvesting donor hearts: Victoria Jenryd, CCP, Skane University Hospital	08.30-08.55	Postoperative recovery as an alternative to intensive care after cardiac surgery – A success story: Anna Falk, RN, Karolinska University Hospital Mark Larsson, MD, Karolinska University Hospital
08.20-09.30	Symposium Cerebral perfusion: How many arch vessels? Moderator: Morten Smedrup, Alexander Wahba Deep hypothermic circulatory arrest with retrograde cerebral perfusion: Rikard Ingemansson, Skåne University Hospital, Sweden Moderate hypothermic circulatory arrest with single (unilateral) antegrade perfusion: Professor Dr Med Andreas F Zierer, Kepler Universitäts Klinikum, Linz, Austria Moderate hypothermic circulatory arrest with three-vessel antegrade perfusion: Dr Ari Mennander, Tampere University Hospital, Finland			09.00-9.25	Fast-track in lung surgery – Multi professional collaboration at its best: Mamdoh Al Ameri MD, PhD, Karolinska University Hospital Mark Larsson, MD, Karolinska University Hospital
09.30-10.00	<b>Coffee break</b>				
10.00-11.00	SACTS 2019 Academic Dissertations Moderator: Christian Olsson With a 100.000 SEK prize to best dissertation	10.30-11.30	SCANSECT Board meeting	10.00-10.20	Effect of early, individualized and intensified follow-up after valve surgery: Britt Borregaard, RN Aarhus, Denmark
11.15-12.15	2019 Crafoord Memorial lecture Professor Dr Med Axel Haverich, Hannover, Germany	11.30-12.15	The role of gaseous microemboli in the adverse effects of cardiopulmonary bypass: Marco Stehouwer, CCP, Heartbeat, Antonius Hospital, Nieuwegein	10.25-11.05	Self-efficacy in the context of heart transplantation: Anna Forsberg, RN, Professor, Lund University Hospital
				11.10-11.30	Indicators and contraindicators for left ventricular assist device (LVAD): Tonje Thorvaldsen, MD, Karolinska University Hospital
				11.35-11.55	The patient´s journey through LVAD implantation: Ann Hallberg-Kristensen, RN, Karolinska University Hospital
12.15-13.00	SATS General Assembly With grab-n-go lunch				
13.00-13.45	STF General Assembly				
14.00	Meeting adjourned
